## **Thanks to citizens of Warlick Drive**

The City of Wilmington would like to let citizens living on Warlick Drive know that the sewage pipe located just past the end of the cul-de-sac in the marsh has been successfully repaired. Crews will remain onsite through next week to clean up and restore the marsh area.

The City recognizes the inconvenience this situation has caused and would like to thank the citizens on Warlick Drive for their patience and cooperation.

At this time, any potential environmental impacts are not known and water quality testing is being conducted. As a precautionary measure, city officials advise citizens not to come in contact with the water.

Citizens who would like more information can call 341-0833 to leave a message, or e-mail [newstoknow@wilmingtonnc.gov](mailto:newstoknow@wilmingtonnc.gov).
